
YOUR FUTURE CAREER AT ROVEMA

We are an innovative, internationally leading manufacturer of packaging machines and lines. As an independent company with more than 600 employees worldwide and headquarters in Fernwald near Giessen, we have a manageable size which enables interdisciplinary cooperation, supports the team concept and opens up diversified areas of responsibility, also on a global level. The organization of our company is open and communicative while decision paths are direct and short.

In order to strengthen our team in the **Customer Service and Spare Parts Department** at our headquarters in Fernwald (Germany), at the earliest possible date we are looking for a

Sales Engineer / Technician / Mechanical Engineer (m/f) for the Spare Parts Sale

Your Tasks

- Technical elaboration of quotations and orders
- Feasibility check of complex customer requests
- Customer consultation and support in technical matters
- Visits to customers for clarification of details if necessary
- Occasional visits to customers to determine customer needs

We offer

- International company with flat hierarchies
- Comprehensive social benefits, a permanent full-time position, 30 days leave, occupational pension and disability insurance
- Continuity and stability through a medium-sized business concept

Your Profile

- Qualification as Mechanical Engineer (m/f), Mechatronic (m/f), Technician / Engineer (m/f) or a comparable qualification
- Professional experience in the packaging machine sector
- Experience in the projection, assembly or design of packaging machines
- Good knowledge about applications
- Experience in the use of MS Office programs
- Independent, flexible working method, ability to work under pressure
- Business fluent English (oral and written)
- Ideally good knowledge of German (oral and written)
